

LITE-CHECK POWER SUPPLY 311R

DESCRIPTION: Provide industrial strength 12 Volt **filtered and regulated** DC power at 20 amps for your LITE-CHECK tester or other electronic equipment where a known and reliable power source is required. The 311R is a long life power supply designed for a variety of shop and industrial environments.

A standard battery is an alternate power source for the tester. Unfiltered power supplies such as battery chargers should not be used as they can cause damage to vehicle ABS controllers and components.

APPLICATIONS: The perfect accessory for the LITE-CHECK INSPECTOR 910B and other LITE-CHECK testers

REQUIREMENTS:

- Input Power: 110 or 220 Volt AC, 60 Hz input power
- Output Power: 12VDC output of 20 Amps

SAFEGUARDS:

- Input Power fuse: BK/MDL-8 slow blow

CONSTRUCTION:

- Steel enclosure with durable powder coat.
- Made to high industrial standards in the USA for rugged use
