

PRO-CHECK 720

COMMERCIAL TRAILER AUTOMATIC LIGHT & ELECTRICAL TESTER

PRO-CHECK 720AC PICTURED

STREAMLINE ELECTRICAL INSPECTIONS

With the included remote control, a single technician can perform a complete 360° visual inspection while the PRO-CHECK 720 automates a complete circuitry test.

MINIMIZED TRAINING

The PRO-CHECK 720's use is straightforward and intuitive, providing shops with minimal downtime due to training.

INCREASED ACCURACY

The LITE-CHECK, PRO-CHECK 720 provides technicians fault information via audible alarm and an easily read digital screen so technicians can easily identify a fault's location and applicable fix.

The PRO-CHECK 720 is a complete electrical diagnostic tester for heavy-duty trailers with a standard 12VDC 7-way round-pin connector. The PRO-CHECK 720's software automatically presents technicians with circuit voltage, amperage, and condition on an easy to read digital screen. Circuit faults (open, short, open ground, chassis ground) are identified and displayed and a unique fault alarm is sounded to alert technicians. The software protects vehicle wiring with automatic shutdown with excessive amperage and low voltage settings.

Included is a full function remote control which has the same functionality as working directly from the tester. This remote control provides technicians with the ability to easily use the PRO-CHECK 720 from anywhere around a trailer and perform a complete 360° visual inspection.

PRO-CHECK 720 PACKAGES

ITEM NO.	DESCRIPTION
18059	<p>PRO-CHECK 720AC TESTER</p> <p>Simply plug the Pro-Check 720 into a reliable 120VAC power supply and you're ready to check the lights and electrical system on any commercial trailer.</p> <p><i>Includes: (1) PRO-CHECK 720AC, (1) Full-Function Remote Control, (1) Orange Remote Control Pouch, 3-Prong 120V Plug</i></p>
18042	<p>PRO-CHECK 720DC TESTER</p> <p>Simply connect the Pro-Check 720 to a reliable 12VDC power supply and you're ready to check the lights and electrical system on any commercial trailer.</p> <p><i>Includes: (1) PRO-CHECK 720DC, (1) Full-Function Remote Control, (1) Orange Remote Control Pouch, Black/Red Battery Clamps</i></p>

USABLE WITH ALL COMMERCIAL TRAILERS

FULL-FUNCTION REMOTE CONTROL
